PORTFOLIO: https://www.gnashstudio.com

Creative technologist and digital artist with experience in front-end development, API integration, and digital product design. Built engaging applications, scaled data systems, and grown creative platforms through hand-drawn animation and visual storytelling. Entrepreneurial background through a profitable Etsy store and a high-growth TikTok animation brand.

Soft Pauer - Junior Software Developer
September 2023 - June 2024

Took a year out before University to get industry experience

- **Front-End Development**: Built and maintained user-facing features for a live app and website using modern web technologies, improving usability and responsiveness.
- **Back-End Contributions**: Assisted with server-side logic, database integration, and API endpoints to support core application functionality.
- **Code Quality & Testing**: Debugged production issues, improved performance, and contributed to code reviews.

Entrepreneur – Etsy Store
September 2023 - May 2024

- **Product Design**: Designed and 3D-printed custom figurines and apparel, including painting and finishing.
- **Customer Experience**: Delivered bespoke orders, handled customer communications, and maintained high review ratings.

IP Registry - Software Developer
Summer 2025

- **Database Expansion**: Expanded and populated a large-scale database using automated data pipelines.
- **API Integration**: Built APIs to pull and synchronise data from multiple external sources.
- **Data Processing**: Cleaned, structured, and validated large datasets for ingestion into production systems.

TikTok Art & Animation Brand - Creator
July 2023 - Present

- High-Growth Platform: Built a TikTok account to 25,000+ followers and 2 million+ total likes.
- Viral Content: Created 4 videos with over 1 million views; top video reached 2.2 million views and 500,000+ likes.
- Hand-Drawn Animation: Produced original frame-by-frame animations using Procreate and digital illustration tools.
- Creative Strategy: Developed story-driven content and visual storytelling formats to maximise engagement.

EDUCATION

University of Birmingham:
 3rd year computer science student
A levels:
Maths (A*), Physics (A), Computer Science (A)
GCSEs:
Latin (7), Biology (7), Chemistry (7), Computer Science (8), English Literature (6), English Language (6), Geography (7), Maths (8) , Physics (8), Spanish (7)

KEY SKILLS

- ☑ **Front-End Development (HTML, CSS, JavaScript, React)**
- ☑ **3D Printing & Product Design**
- ☑ **Back-End Development (Node.js, SQL)**
- ☑ **Database Design & Data Pipelines**
- ☑ **Digital Illustration & Animation**
- ☑ **UI / UX Design**

KEY ACTIVITES

Visual Storytelling & World-Building:
Developed recurring characters and narratives for digital animation projects to build long-term audience engagement.
Customer Experience Design:
Handled custom orders, client communication, and bespoke product delivery for an online creative store.
